PropNo	S1709
ZIP code	07400
Town	Bonaire
Location	Urban
Inselgemeinde	Alcúdia
plot surface	approx. 1.110 m ²
Purchase price	375.000,00 €

Description

The building plot offered here is located in a sought-after residential area of Bonaire. You have here a size of approx. 1,000 m² for building a single-family house or a villa with approx. 300 m² living space. Electricity and water are at the property. It is situated at a mountain location with a fantastic view to the mountains between Alcudia and Bonaire. The neighbouring plot 116252 is also for sale.

Bonaire means "good air" - and as the name says, the sea air is especially fresh and good here. It is only about 5 minutes by car from Alcudia with its beautiful old town. In the beautiful and natural bay is the harbour Puerto Cocodrilo, which looks like a crocodile when seen from above. An interesting selection of bars and restaurants in the area, as well as the marina, give this region an appreciated quality of life. The town of Alcudia and the municipality of the same name are located on the north-east coast of Mallorca. Alcudia is 50 kilometres away from the island's capital Palma de Mallorca. The adjacent bay of Alcudia is one of the longest beach promenades on the island. The town is geographically located on a peninsula between the bay of Pollensa in the north and the aforementioned bay of Alcudia in the south. Surrounded by the imposing city wall, the old town offers a wonderful ambience with many bars and restaurants. Alcudia is worth a visit because of its eventful history and its market days on Tuesday and Sunday.
